

MEETINGS AND EVENTS

ACerS Spain Chapter Sponsors Conference

Together with the Spanish Ceramic and Glass Society (SECV), the Spain Chapter of the American Ceramic Society, is organizing the Annual Congress of SECV to be held at the University Jaume I of Castellón (UJI) in October 26-29.

The Annual Congress of SECV will take place in a hybrid mode. ACerS Spain Chapter will be the official sponsor of the Conference and specifically, of the symposium, "Additive Manufacturing of Ceramic Materials". Visit the [website](#) for more information.

Spain Chapter holds inaugural event

Castellón, 20/02/2020: Over 50 professionals attended the kick-off session of the Spain Chapter or section of the American Ceramic Society (ACerS), held at Universitat Jaume I (UJI) of Castellón on Institute for Ceramic Technology (ITC) premises.

The session was inaugurated by Jesús Lancis, Vice-Rector for Research and Knowledge Transfer at Universitat Jaume I (UJI); Gustavo Mallol, Director of the Ceramic Industry Research Association (AICE); Enrique Sánchez, Director of the University Institute for Ceramic Technology "Agustín Escardino" (IUTC-UJI); and Arnaldo Moreno, President of the ACerS Spain Chapter and member of the Institute for Ceramic Technology (ITC).

Pilar Gómez and Arnaldo Moreno then delivered an introduction to additive manufacturing, followed by the presentation: "Digitalization, technologies and examples", by Fátima Vélez de Guevara and Cristina Fabuel, experts at ITC in this field. The paper: "Additive manufacturing of ceramic/glass composites of low melting temperature (500 °C)" then followed. This presentation had been prepared by experts from three major research centers, namely the Institute for Materials Science in Madrid (ICMM-CSIC), the Nano-Materials and Nanotechnology Research Center (CINN-CSIC) in Asturias, and the Institute for Ceramics in Galicia (ICG-USC).
